We deliver health, pampering, and fun to the doorstep of your event

MOBILE SPA SERVICES

MANICURE

Our nail professionals deliver the full pampered pinkie package: fingers are soaked and softened, cuticles clipped, and nails are trimmed and buffed to perfection. Polish optional.

Dry Manicure - A traditional manicure without the soaking. A perfect alternative for male clients or where running water is not available.

PEDICURE

The client will start with a soak in a warm foot bath, which includes lavender aromatherapy salts, softening up any hard skin and helping to refresh tired, swollen feet. Aromatherapy foot scrub is applied and nails & cuticles are clipped. Finally the therapist will finish with a calming foot massage.

Dry pedicure - No soak pedicure. Cuticles are clipped. Nails are trimmed buffed. Invigorating foot massage tops off the experience.

Add-on options for manicures and pedicures include hand-painted designs, stick on decals and corporate logos.

WET SHAVE

Male clients recline in zero gravity chairs while professional licensed female barbers deliver hot towel treatment and straight razor shaves. Facial massage and finishing products leave face feeling smooth the rest of the day.

FACIAL

The full facial begins with a deep cleanse under steam. Exfoliation using scrub granules or gentle rotating brushes, toning and replenishing masks and a facial massage leaves skin tingling and refreshed.

Express Facial

This “facial refresher” is a 20-minute treatment that cleanses, removes impurities and replenishes the skin with antioxidants. Following the enriched facial mask, we moisture the skin with a collagen booster for firmer, more supple skin.

HOT LAVENDER PARAFFIN WAX

After a refreshing dip in warm lavender wax, clients' hands are enveloped in terry towel gloves. Your client reclines for 5-10 minutes with a sensory-reducing eye mask to soothe tired eyes. After heat and moisture hydrates skin, the hands are massaged with lavender cream.

CHAIR MASSAGE

Clients remain fully clothed with this relaxing yet invigorating upper body massage that reduces tension and fatigue.

TABLE MASSAGE

50 minutes of Swedish or deep tissue massage performed on a sheeted massage table, soothes and relaxes muscles and rejuvenates the mind, body and spirit.

FOOT MASSAGE

The client reclines in a comfy reflexology chair as the feet are cleansed & wrapped in a hot lavender steam towel, then by integrating Swedish and Reflexology, points on the feet are stimulated by means of pressure, stretch and movement to break up stress patterns in other parts of the body. Massaging with peppermint cream leaves feet tingling and refreshed.

TAROT CARD READING

Stuck for something original and lively? Tarot card readings put a unique & fun spin on any event. Light-hearted readings are entertaining and spark some interesting conversations among event guests. Especially fun for your New Year's event!

OXYGEN BAR

Our fully contained oxygen bar is an oasis for any event, meeting, or tradeshow. Gather 8 people around our stand-up bar to socialize or hold a meeting while receiving revitalizing oxygen.

Extend an additional 10 feet for 16 seats and extra counter space. Corporate branding on backlit panels optional.

Set-up, breakdown and professional staff included for the entire event

Oxygen Carousels

We can supply you with just the oxygen carousels without the stand-up Oasis bar. The carousels have colored lighting and contain the herbal aroma oxygen delivery system.

Using the carousels alone provides maximum flexibility and allows event planners and tradeshow exhibitors to create their own design concept or tailor a set-up that complements their theme.

Working with Premier Corporations & Event Planners since 1996
